Show Values of Custom Field

[GET] api/custom-field-values/{custom_field_name}

Available Custom Fields:

opportunity_lost_reasons
quote_dead_reasons
quote_payment_terms
task_statuses

Update Values of Custom Field:

[PUT] api/custom-field-values/{custom_field_name}

Payload:

```
{
  "field_values": {
    "id": {value_uuid}, * (null or uuid)
    "field_value": {string_max_500_chars}
  }
}
```

The field values with defined id will be updated,
values with null id will be created,
other existing field values will be deleted.
